

PRODUCT INFORMATION

Industrial Work Pants / 502008

These work pants can be washed at up to 60 °C in a domestic machine, or at up to 85 °C in an industrial machine. Matching knee pads are separately available, and can be inserted in 2 positions in the built-in knee pockets. The pants feature a double hem, which means they can be lengthened by about 6 cm. The raised elastic waistband in the back improves comfort. These TUB2000 work pants have leg pockets on the left and right. The back pocket can be closed with a flap.
